

## Stratford Shopping Centre

As an alternative to the larger cladding styles we can provide, the Westfield Stratford City Shopping Centre was finished with TECU Brass CGL Shingles. These thin strips of unfinished metal (0.7mm in this case) can be used to economically cover large areas and they are left to develop their own patina; leading to a durable and increasingly distinctive exterior.

Contact us for more information about the CGL Shingles and find out how they can be used for your next project.

System – CGL Shingles  
 Project Name – Westfield Stratford City  
 Material – Tecu Brass  
 Supplier – KME  
 Contractor – Red Architectural Ltd
